

Open and plot high quality maps  
if you don't have ArcView or ArcExplorer  
(opening time depends on computer performance)

**While in Map View:**

1. To exit back from Map viewing  
click on arrow in lower left corner of Map View
2. To print Map - press CTRL-P
3. To bring Adobe Acrobat menu - press CTRL-L or ESC

**View  
Geologic Map**

Largest file (slowest to open)

**Section 508-compatible  
Geologic Map Information**

**View  
Gravity Map**

Smallest file (fastest to open)

**Section 508-compatible  
Gravity Map Information**

**View  
Magnetic Map**

Medium file size

**Section 508-compatible  
Magnetic Map Information**

**Exit**

To exit back to work with data
