This CD-ROM contains data in three different formats:

1. ArcView 3.2 project (main data set with full GIS and plotting capabilities).
   You need to have Environmental Systems Research Institute, Inc. (ESRI) ArcView 3.2 software installed on your PC !

2. ESRI ArcExplorer project (simple GIS viewer without editing capabilities).
   ESRI ArcExplorer 2.0 available on this CD-ROM.

   Install ArcExplorer

3. Several plot files in Encapsulated Postscript (EPS) and Portable Document (PDF) formats. These files are copies
   of final printable maps created from ArcView layouts.
   To use PDF files you need to have Abode Acrobat Reader^{TM} installed on your PC.
